Why AIG

Customized Program Solutions

ISSUE:

A multinational company faced challenges with coordination of foreign and domestic primary limits and excess attachment points with various carriers.

SOLUTION:

AIG coordinated a program consisting of AIGRM primary casualty, excess lead umbrella, and foreign casualty policies, providing consistency of coverage, limits, and claims handling. AIG's integrated solution consisted of a multi-year rate commitment and a multi-year transition collateral structure.

BENEFIT:

The client experienced an easy transition and global coverage certainty through coordinated global limits, holistic program design, and a collateral transition plan that fit their unique needs.

WHY IS THIS IMPORTANT?

Customized program structures meet clients' unique needs.

Advanced Risk Consulting & Analytics

ISSUE:

A client with rapid expansion and employee turnover suspected its worker injury and auto loss costs were significantly higher than average for its industry.

SOLUTION:

AIGRM's Risk Consulting & Analytics team reviewed safety data with the client and broker to develop a two-year action plan to measure leading and lagging indicators and track initiatives designed to mitigate key loss drivers, including: ladder safety, ergonomic best practices, new employee training, return to work, leadership training, telematics, and fleet safety.

BENEFIT:

The client's loss costs in both auto and workers' compensation were reduced by more than 15% over the two years.

WHY IS THIS IMPORTANT?

Dedicated expertise and customized resources help clients reduce risk.

Claims Account Management

ISSUE:

A client sought flexibility in choosing an unbundled claims approach based on lines of business.

SOLUTION:

AIGRM offered the client flexibility by accommodating their long-standing unbundled WC TPA relationship and supporting their decision to bundle their auto and general/product liability claims handling with AIG.

BENEFIT:

The client was able to maintain consistency on the WC program and take advantage of AIG's claims expertise and familiarity in handling complex general/product liability and auto claims.

WHY IS THIS IMPORTANT?

Flexibility in claims handling provides consistency and expertise.

What is AIGRM?

- Customized workers' compensation, auto liability, and general liability/products liability program structures for sophisticated organizations that retain portions of their risk via deductibles, self-insured retentions (\$250K and higher), captives, and retrospective programs, as well as the ability to utilize large guaranteed cost programs (\$2M or more in guaranteed cost programs).
- Alternative risk structures include captives, closeouts, retrospective loss portfolio transfers, or structured finance solutions.
- Expertise in creative and flexible solutions around complex risks, spanning a variety of industries, including but not limited to bankruptcy opportunities.
- Coordinated integration into AIG's umbrella/excess and foreign casualty platforms, including primary limits, attachment points, and worldwide coverage.

FOR AGENT/BROKER USE ONLY. NOT FOR PUBLIC DISTRIBUTION OR SOLICITATION.

The scenarios described herein are offered only as examples. Coverage depends on the actual facts of each case and the terms, conditions and exclusions of each individual policy. AIG is the marketing name for the worldwide operations of American International Group, Inc. All products and services are written or provided by subsidiaries or affiliates of American International Group, Inc. Products or services may not be available in all countries and jurisdictions, and coverage is subject to underwriting requirements and actual policy language. Non-insurance products and services may be provided by independent third parties. Certain property casualty coverages may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds, and insureds are therefore not protected by such funds.
