

AIG Cyber Risk Advisory Team

The AIG Cyber Risk Advisory Services team is comprised of experienced cyber risk experts with vast knowledge of the latest threats, as well as the latest improvements clients can make to build cyber resiliency. The team works with clients throughout the policy period to analyze their current cyber security postures and, using claims and root cause analysis investigations, identify steps to help improve their cyber security. Leveraging current threat intelligence, the Cyber Risk Advisory team can also alert clients of potential vulnerabilities or weaknesses that can be proactively remediated. The team's client-specific mentality and bespoke skillset directly helps clients improve cyber risk.

Phil Kibler
Head of AIG Cyber Risk Advisory Services

Phil joined AIG in 2016 and is responsible for strategy, development and delivery of AIG's proactive cyber services delivered by consultants and partners. Prior to joining AIG, Phil was with IBM for 35 years, spending the last 10 in security and leading the global cyber security practice there for four years. He also provided proactive and reactive services to clients of all sizes, from all industries and for all attack surfaces, supporting some of the largest and best known cyber incidents globally. Phil carries broad knowledge of security framework and risk transfer products and requirements and is trained to think and consider as the bad actors and groups do (diabolically).

American International Group, Inc. (AIG) is a leading global insurance organization. AIG member companies provide insurance solutions that help businesses and individuals in approximately 70 countries and jurisdictions protect their assets and manage risks. For additional information, visit www.aig.com. AIG common stock is listed on the New York Stock Exchange.

AIG is the marketing name for the worldwide operations of American International Group, Inc. All products and services are written or provided by subsidiaries or affiliates of American International Group, Inc. Products or services may not be available in all countries and jurisdictions, and coverage is subject to underwriting requirements and actual policy language. Non-insurance products and services may be provided by independent third parties. Certain property casualty coverages may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds, and insureds are therefore not protected by such funds.
